

Neighbors,

A very common complaint from homeowners is improperly parked vehicles on the Reynolds Farm property. Since guest parking is limited, it is extremely important that homeowners park only in their designated parking spaces so that guest parking is available for guests. Please review the following list of spaces by unit number, and the attached map.

* Common area driveway refers to the feeder driveway that services multiple garages that back onto each other. They both utilize the same space to back into. Please be considerate of your neighbor in parking a vehicle that may block your neighbor's access.

At last count, we have a total of 16 guest parking spaces on the property, and homeowners are using between 5 and 8 of them. Consistent use of guest parking by homeowners is a violation!
